

Asmahul Husna

Full Stack Web Developer — Competitive Programmer

+880 19 962 5019 — asmahul.cse8.bu@gmail.com — Barishal, Bangladesh

LinkedIn — GitHub — Portfolio

Career Summary

Full Stack Web Developer with strong foundations in MERN stack and competitive programming. Experienced in building scalable web applications with authentication, role-based access control, payment integration, and optimized REST APIs. Passionate about writing clean, efficient, and maintainable code.

Technical Skills

Languages: JavaScript (ES6+), Python, C/C++, HTML5, CSS3

Frontend: React.js, React Router, Tailwind CSS, DaisyUI, Framer Motion

Backend: Node.js, Express.js, MongoDB, Firebase, JWT, REST API

Tools: Git, GitHub, Vercel, Firebase Hosting, VS Code

Problem Solving & Competitive Programming

- Solved 1500+ algorithmic problems across multiple platforms.
- Participated in ICPC 2023 Regional Contest.
- Participated in NGPC 2022.
- Participated in 100+ online programming contests.

Profiles: Codeforces — CodeChef — LeetCode

Projects

petBuddy

Live — Client — Server

Full-stack micro-task marketplace built with MERN stack enabling buyers to post tasks and workers to complete them securely.

- Implemented role-based dashboards (Admin, User) with protected routes using firebase access token.
- Integrated Stripe payment gateway ensuring secure and transparent transactions.
- Designed scalable REST APIs with MongoDB aggregation and efficient query handling.
- Implemented dynamic UI features including infinite scrolling, skeleton loading, and responsive dashboard analytics.

Tech Stack: React, Node.js, Express.js, MongoDB, Firebase, Stripe

tastyShare

Live — Client — Server

Full-stack artifact management platform allowing users to create, manage, and explore structured historical records.

- Developed complete CRUD functionality with secure JWT-based authentication.
- Built optimized search and filtering mechanisms for structured metadata handling.
- Implemented protected routes, favorite system, and responsive UI with smooth animations.

Tech Stack: React, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS

movieTime

Live — Client — Server

Full-stack freelancing and task management platform connecting task creators and solvers.

- Implemented authentication with email/Google login and protected user dashboards.
- Designed secure task posting, bidding, updating, and deletion system.
- Built RESTful backend APIs with proper validation and error handling.

Tech Stack: React, Node.js, Express.js, MongoDB

Education

BSc in Computer Science & Engineering
University of Barishal

2022–Present

Languages

Bengali (Native)

English (Professional Proficiency)
